

Supervisor's review for the Coursework  
**MASTER'S PROGRAMME «SYSTEM AND SOFTWARE ENGINEERING»**

Full name of the student Tursunov Jasurbek

Year of Studies 1

Faculty Computer Science

Title of the Work: «Blockchain Based Mobile Application for Bookcrossing»

#	Evaluation criteria	Grade according to supervisor's opinion (out of 10)
1.	The content of the coursework corresponds to its title	8
2.	Aims and objectives stated in the coursework have been achieved	9
3.	Originality (novelty) of the coursework material	8
4.	Degree of independence of the student during research for coursework	8
5.	Formatting and composition of the coursework (report)	7
	<b>Final grade</b> ** for the course work, that appears in the academic transcript of the student	<b>8</b>

Comments and remarks (it is **mandatory** part to be filled in by the supervisor):

Enabling transparency of information is one of the biggest promises of blockchain technology, which provides a fully auditable and valid ledger of transactions. The main goal of this work is to investigate the opportunities of blockchain technology to develop secure and transparent solution. Tursunov Jasurbek has developed mobile application for bookcrossing based on blockchain, he has provided problem statement, research background and solutions. Author provided description of system design and implemented supposed prototype.

Supervisor **Hadi Saleh**  Ph.D., associate professor. Department of Software Engineering,  
National Research University Higher School of Economics  
Date 20.06.2023

\*\* The final grade is the average of the five grades according to the evaluation criteria of the course work.
